E-sports Awards Presentations

E-sports (also known as electronic sports) is a form of competition using video games and is often played as a multiplayer team format.

For the Fall 2020 season, the CEOs team (Rocket League) won the state championship and the Gatekeepers team (League of Legends) were state finalists!

Gatekeepers & CEOs March 5th, 2021

Shrewsbury High School

Coach McKinstry, League of Legends "the Gatekeepers": Jarrod Palladino, Sajed Ziade, Raul Martins, Steven Hu, Kyle Cheung, Rocket League "the CEOs": Trevor Perduta, Lawrence Pemberton, Robin Oxley-Luyster.

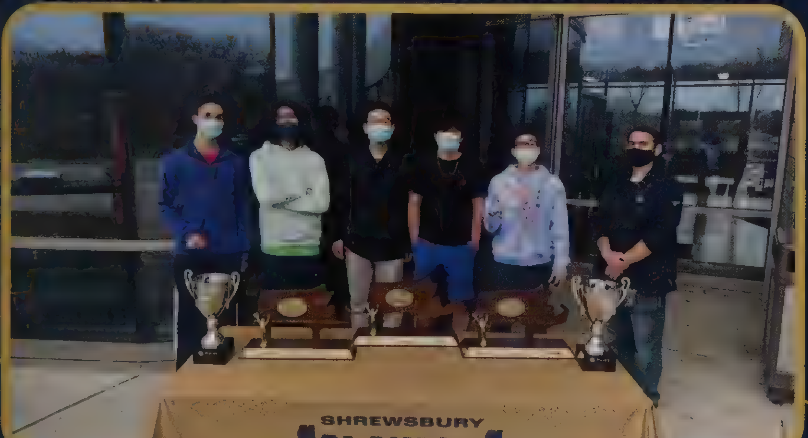
HIGH SCHOOL ESPORTS

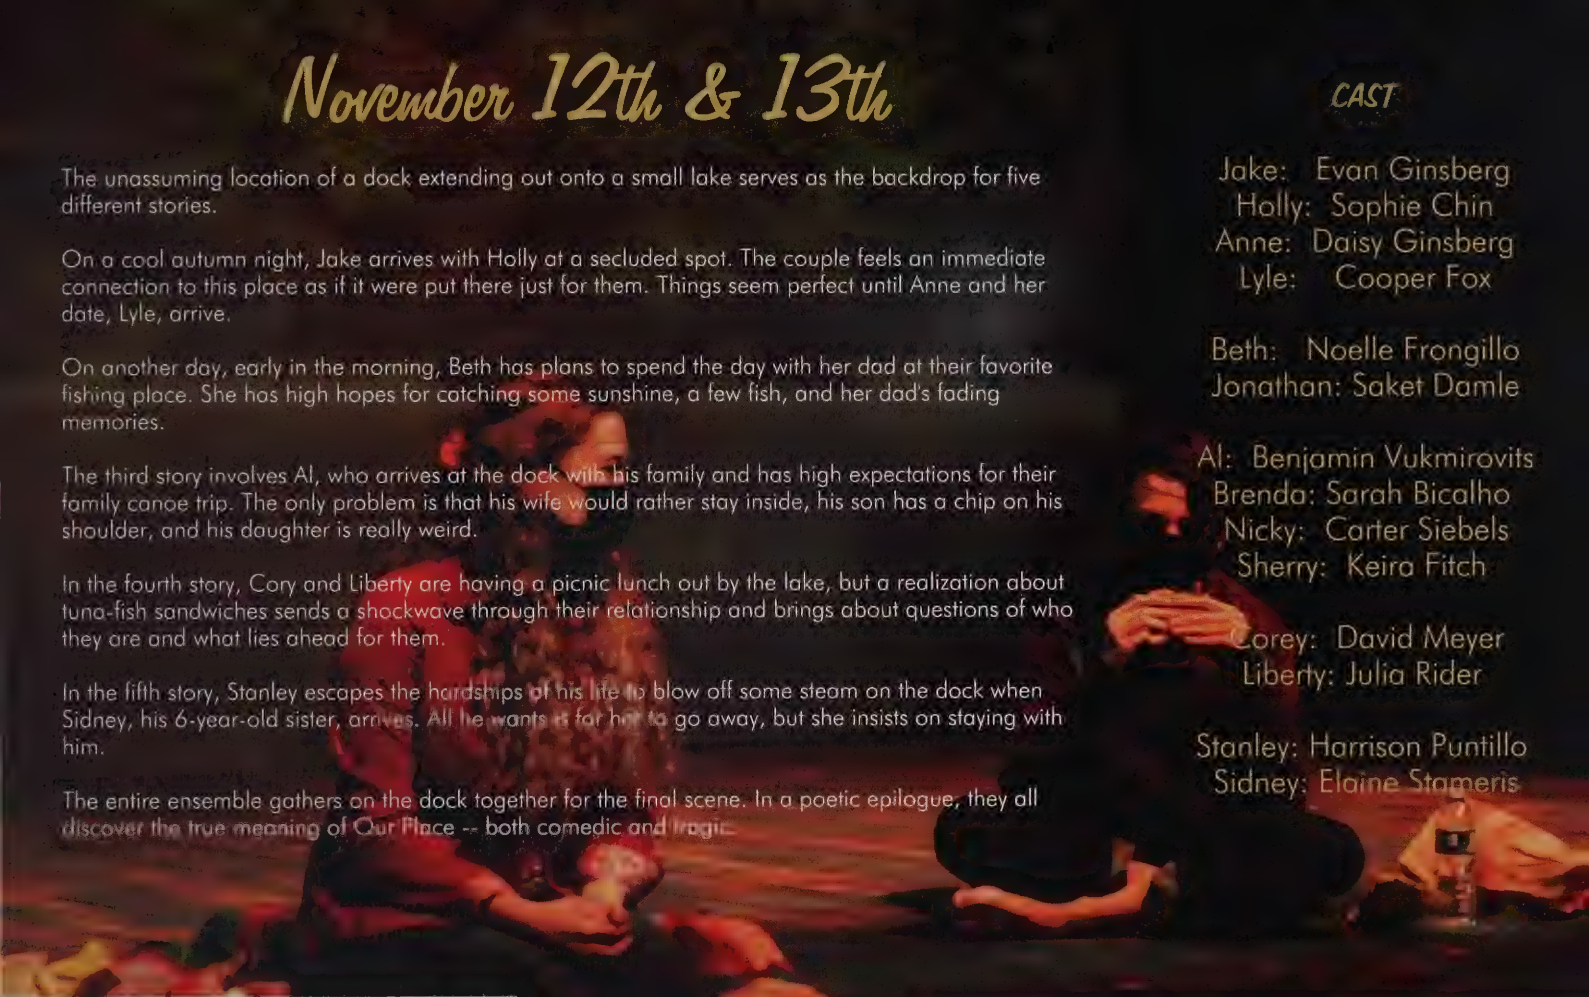
Gatekeepers November 12th, 2020



Trevor Dodson, Sajed Ziade, Jerry Du, Tristan Duerk, Raul Martins, Coach McKinstry.

The Gatekeepers, competed against over 1,000 teams from all over the country during the summer tournament. Shrewsbury High School e-sports team was honored for winning League of Legends first ever "Summer Showdown" tournament hosted by PlayVS. The Gatekeepers have had great success and are the defending four-time Massachusetts State Champions!

Fall Play



November 12th & 13th

The unassuming location of a dock extending out onto a small lake serves as the backdrop for five different stories.

On a cool autumn night, Jake arrives with Holly at a secluded spot. The couple feels an immediate connection to this place as if it were put there just for them. Things seem perfect until Anne and her date, Lyle, arrive.

On another day, early in the morning, Beth has plans to spend the day with her dad at their favorite fishing place. She has high hopes for catching some sunshine, a few fish, and her dad's fading memories.

The third story involves Al, who arrives at the dock with his family and has high expectations for their family canoe trip. The only problem is that his wife would rather stay inside, his son has a chip on his shoulder, and his daughter is really weird.

In the fourth story, Cory and Liberty are having a picnic lunch out by the lake, but a realization about tuna-fish sandwiches sends a shockwave through their relationship and brings about questions of who they are and what lies ahead for them.

In the fifth story, Stanley escapes the hardships of his life to blow off some steam on the dock when Sidney, his 6-year-old sister, arrives. All he wants is for her to go away, but she insists on staying with him.

The entire ensemble gathers on the dock together for the final scene. In a poetic epilogue, they all discover the true meaning of Our Place -- both comedic and tragic.

This student-led organization provides an opportunity for students interested in the medical field to learn about many different aspects of medical professions including medical doctors, surgeons, PA, nurses, nurse practitioners, pharmaceuticals, and epidemiology. Activities include games and lessons to learn and understand medical terminology and diseases, guest speakers, practice activities (make your own cough drops, suturing bananas with suture kits), debates, mindfulness and stress management.

Special Peer Connections

Who we are

Special Peers Connections is a formal opportunity for students of all abilities to meet together and participate in an activity as a group. Students in Special Peers Connections have been involved in a variety of activities. Some of which are a trip to the AMC bowling alleys and making gifts for Mother's Day. During the 2020 -2021 school year, the pandemic has made it so that we cannot meet in person however, social interactions are more important than ever. All meetings are planned via Zoom. Club officers facilitate meetings where activities are conducted. We are finding that there are more possibilities meeting virtually than we first thought. Activities include social interaction in one to one and group activities.

The Yearbook Committee hopes you enjoy the SHS 2021 yearbook and we wish our seniors the best of luck in their future plans! Despite being faced with new challenges as a result of COVID-19, we are happy to have been able to capture highlights from this year and the many ways we remained *connected* as Shrewsbury Colonials.

A special thank you to Nicole Podlipec (class of 2021) for creating the Shrewsbury community artwork on page one of this book as well as the unique club artwork. Nicole's community artwork captured special areas in Shrewsbury, familiar to many of us.

Thank you also to parents, staff and students for contributing photos throughout the year.

Sincerely,
SHS Yearbook Committee

Mission Statement

Black History Committee Mission Statement
updated 2020

The mission of the Black History Committee is to broaden the worldview of the student body at Shrewsbury High School through the exploration and analysis of black history, a celebration of black culture, and social activism for racial justice. All students are welcome to join this club no matter their race, creed, or color.

We seek to recognize the contributions of African Americans to the history of the United States, and to remind students that black history is not just about race - it is about who we are as a nation, where we have come from, and where we are going.

Thalia

It's hard to believe you are a senior graduating from high school. In the blink of an eye, our little "babycakes" has become the young woman we dreamed you would be. We are so proud of all your accomplishments but even prouder of how you handled more difficult challenges. You always kept a level head and saw the positives in the lessons. You persevered and proved your mettle.

The best has yet to come for you. Continue to share your joy, energy, and gifts. May your star stay bright and your light shine far.
Keep dreaming!
Keep reaching!

We love you with all of our being!

Amy, you entered Senior year during a Pandemic. It was not what anyone could ever imagine for their child but you took it all in stride. You continued to do everything you could to make the best of it throughout the year. You took time to celebrate the good things and not focus on the bad. For that, you made us so proud of the person you are. You have always made us proud and we can't wait to see all the amazing things you will do in your life. You have so many good times and memories to make!! Remember to always be true to yourself and do what makes you happy. We love you to the moon and back! Dad, Mom and Lindsey.

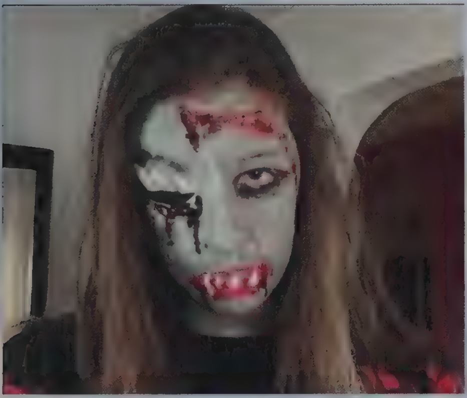
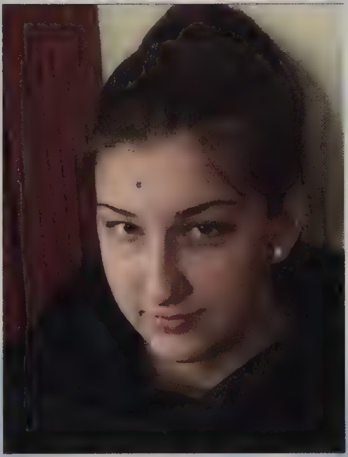
MARINA KUNZ, CLASS OF 2021

Always remember you are braver than you believe, stronger than you seem, smarter than you think and LOVED more than you know. You exploded into this world and have gone non stop since that day, bringing us on a wild ride, always teaching us so much along the way. You did it! Congratulations on finishing this chapter of your life! Our wish for you is that your dreams and aspirations will give you wings and take you to special places and help you accomplish your dreams. You have always been so special to us and brought so much joy to our lives. We wish you the best in life. Remember that faith in yourself, hope, trust, love, kindness, patience and perseverance are some of the things that will carry you through. We love you for the baby you were and the woman you are today. Some people like flowers, sunsets or beaches, but we think you have been beautiful to watch grow.





Someday you'll look back at these pages and think about the people and events that shaped your high school experience. Right now, though, it's time for something new and, as your biggest fans, we can't wait to see what happens next! We are so proud of you and will always be there for you.

We love you, today and always.

Dad, Mom and Stephan

As you cross the stage to receive your diploma, we want you to know that we are so incredibly proud of you and all the years of hard work you put into your education. This is one of those precious moments in life. The ones that you look back on and smile with great pride. But know that this is simply the beginning. A great adventure still awaits you.

It is time now to spread your wings, fly out into the world and make your mark. And what a mark it will be. Your talent, your smile and your shining spirit will make our world a thousand times better then it has ever been before.

As exciting as this all is, just know that you will always have a spot at home with a warm, squishy bed and a bag of pretzel goldfish waiting for you to visit. Love you, Kid.

- Marjan van den Belt

And what an interesting journey it has been so far! Your junior and senior year certainly took a wide turn off the expected path. You have handled the changes with a positive spirit and with a grateful attitude for what you are able to experience rather than focusing on what you are missing. We are so very proud of your resilience, and are confident that you are ready for the next few years of your education! We cannot wait to see what the coming years bring, and and we know that the best is yet to come. We will be cheering for you every step of the way!

It is with great pride and joy to congratulate you on your outstanding accomplishments as you graduate from SHS. Your dedication and self-motivation are incredible and very inspirational. Your passion for the performing arts is deeper than any one single performance. Moreover, it is the honest connections you have shown through your story telling performances to which you strive to illustrate the true meaning of empathy, compassion and kindness. It is through the performing arts of music, dance and acting how you bring forth an awareness of inclusiveness, and a non-discriminatory society at the same time spreading a feeling of joy and happiness. You have such a special heart filled with love. Your spirit has the "strength of the ocean" and your strong character and powerful courage are always present while exhibiting endless gratitude.

GRADY ROADMAN 2021

First and foremost, your senior year is not the year any of us expected and is extremely unfortunate. In the midst of an unprecedented time, you've still achieved great grades and become a two-sport Captain. You've paid your dues from the very beginning. I mean, what do you say to the kid/guy who never had to be told to do his homework or study? While we've truly missed watching #77 on the field this fall, we're super thankful and proud of everything you are! You're the most self-disciplined kid we've ever known! You're a rules follower, a leader, very logical, and strong in your convictions. You know who you are. You've made parenting a walk in the park! Be easy on yourself and follow your logic, as one day you'll become a fantastic teacher and coach!

U.S. ELECTION 2020

Joe Biden was elected as the 46th president of the United States. His running mate, Kamala Harris, made history as the first woman and woman of color as Vice President. Biden and Harris were declared winners of the presidential election after ballot-counting continued for days past Election Day due to unprecedented levels of mail-in votes cast amid the COVID-19 pandemic. President Donald Trump became the first president in U.S. history to be impeached twice, after being charged with incitement of insurrection after his supporters breached the US Capitol in an attempt to disrupt the certification of the 2020 Electoral College results.

FIRST U.S. SPACE FORCE LAUNCH

The U.S. Space Force completed their first-ever mission by launching the sixth AEHF-6 satellite into orbit on March 26. Sent by rocket from the Cape Canaveral Air Force Station in Cape Canaveral, Fla., the Advanced Extremely High Frequency satellite joined five others that circle the earth from 22,000 miles above, providing clear communication between the military and the government.

LOWEST-EVER OIL PRICES

Oil prices in the U.S. hit a historic low, falling to -$37.63 a barrel in April. Decreased demand due to the pandemic and lack of storage capacity for excess supply contributed to this drop. Oil companies resorted to renting tankers to store excess oil, reducing production and temporarily capping wells.

TOKYO OLYMPIC GAMES POSTPONED

The 2020 Summer Olympic Games, scheduled to be hosted by Tokyo, Japan, were postponed until July 2021. The decision came after the World Health Organization cautioned Japan's leaders about the rapid spread of the coronavirus, while many countries and athletes expressed safety concerns. The leaders hoped their decision would allow the world time to recover from the pandemic but will plan to continue with or without COVID-19.

SOCIAL JUSTICE CHANGE

Thousands marched for social justice and an end to systemic racial inequality throughout 2020, leading to pivotal and historical changes.

Notable changes include, but are not limited to:

- The Boston Arts Commission voted to remove an 1879 statue of a slave kneeling beneath Abraham Lincoln
- Mississippi redesigned its 126-year-old state flag without the Confederate symbol
- Big brands like Uncle Ben's dropped their racially stereotyped names and images
- Black American authors topped bestseller lists while the media showcased outstanding films by Black filmmakers
- Numerous sports teams changed their names or mascots, including the Washington Redskins football team dropping the Redskins name and the logo of an indigenous chief

CORONAVIRUS PANDEMIC

The unprecedented arrival of the highly contagious respiratory virus shook the world and prompted the largest quarantine in human history. Staying safe meant staying home, for work and for school. With over 87 million cases worldwide, borders closed, global death toll reached 1.8 million, hospitals hit capacity, face masks became mandates and social distancing was the only way to gather.

$2 TRILLION COVID-19 RELIEF PACKAGE

The U.S. government passed a $2 trillion relief package to help families and the economy through the COVID-19 pandemic. The package included one-time payments of $1,200 to individuals and $500 per child under 18, and expanded unemployment benefits by $600 per week for 4 months. The last time the government passed a relief package was during the 2008 Great Recession, when Americans received tax rebates of $600 per individual, and $300 per minor child.

SUPREME COURT CHANGES

CORONAVIRUS DASHBOARD TRACKED BY MILLIONS

Millions worldwide tracked the coronavirus online by utilizing a number of COVID-19 dashboards. One of the most popular is the JHU dashboard, created by a small team from Johns Hopkins University. The interactive trackers provide up-to-the-minute COVID-19 statistics for countries, states and cities across the globe. TIME'S BEST INVENTIONS OF 2020

Time Magazine's 100 Best Inventions of 2020 showcased new ideas that were good for our health and the environment. Bees can thrive longer thanks to Beewise, an artificial intelligence-powered hive that provides automatic temperature and pest control. Clean drinking water in 60 seconds, anyone? PERSONALIZED DRUGS TREAT RARE DISEASES

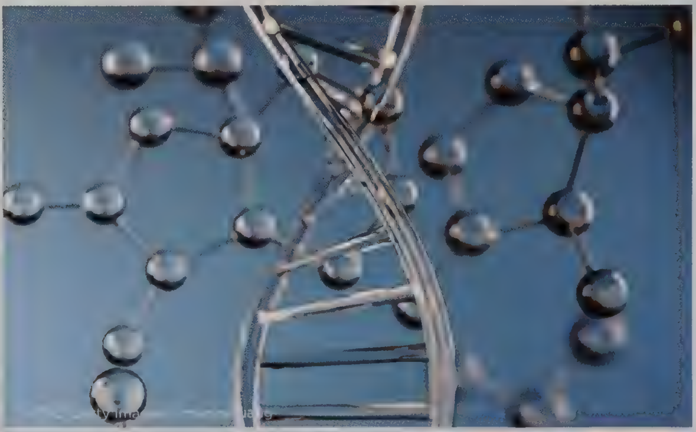
New drugs that can be tailored to a person's genes are being developed to treat rare diseases caused by genetic mistakes. The first successful medicine of this kind was developed for 6-year-old Mila Makovec, who has a fatal inherited brain disorder. Neurologist and neurogeneticist Timothy Yu and his team developed a custom treatment for Mila's disease-causing DNA mutation, and it stopped the disorder from progressing. Researchers are continuing to develop such DNA-related solutions.



5G ROLLOUT ARRIVES IN U.S.

The highly anticipated rollout of 5G wireless networks began this year, as mobile phone carriers gradually began building out their coverage and releasing 5G-enabled phones. 5G offers super-fast downloads, millisecond response time and room for more devices. The technology is said to be key to innovations in robots, hospital equipment, self-driving cars and beyond.

A.I. HELPING FIRST RESPONDERS

Artificial intelligence and machine learning began helping first responders in life-saving ways. Drones and robots were employed to protect firefighters by entering hazardous areas for them. These included the remote control-powered Thermite RS3, a small tank-like vehicle with the ability to spray water from a front nozzle, clear heavy debris and record video. The NeuroFlow app was also used by firefighters, medics and other emergency workers, to detect and monitor mental health issues.

ANTI-AGEING MEDICINES IN THE WORKS

Scientists are developing medicines that would slow the ageing process but allow people to grow older, healthily. The treatment, called senolytics, would target the harmful cells that contribute to ageing and diseases that come with it, including cancer, heart disease, and dementia. Though the release of the therapy is still years away, researchers are hopeful that senolytics could go beyond simply treating the symptoms of aging, and instead combat the causes from the start.

CONNECTING BY VIRTUAL AND VIDEO APPS

The need for social distancing during the coronavirus pandemic transformed the way people came together. Workplaces turned to virtual environment providers like 6Connex to hold large virtual summits and conferences, and video apps including Zoom, Microsoft Teams and Google Hangouts for meetings. Outside of work, people sought virtual headsets to transport themselves to social hangouts like dance clubs, without leaving home. And for milestones like birthdays and weddings, video apps again united everyone safely.

SKYSCRAPER-SIZED CORAL REEF

Scientists discovered a coral reef towering higher than New York's Empire State Building, in the Great Barrier Reef. Located off the coast of Northern Queensland, Australia, the 1,640-ft. structure sits 130 ft. below the ocean surface and stretches nearly a mile wide. The reef is estimated to be 20 million years old at its deepest point, and is the first of its kind to be found in 120 years.

SPACEX LAUNCHES FIRST COMMERCIAL FLIGHT

The SpaceX capsule made history on May 30 as the first astronaut mission to be launched into orbit by a privately-owned company. This is also the first time since 2011 that an orbital human spaceflight departed from American soil. NASA teamed up with SpaceX to send astronauts Bob Behnken and Doug Hurley to the International Space Station for 63 days.

ANCIENT FOREST FOUND

An ancient forest was discovered 60 feet underwater, off the coast of Alabama. The cypress grove, which had lived during an ice age, had been hidden under a thick layer of sediment for about 60,000 years. The debris kept the forest preserved until Hurricane Ivan uncovered it in 2004. Scientists since began collecting wood samples and discovered more than 300 animals living within it, plus bacteria that may help create future medicines.

TASMANIAN DEVILS RETURN

Twenty-six Tasmanian devils were released back to Australia, 3,000 years after they had become extinct on the mainland. Freed to a wildlife sanctuary in New South Wales, the animals had been raised by conservationists in Tasmania, where the remaining population lives. The conservationists believe reintroducing the predators to their former home will protect smaller endangered species from feral animals, and keep the environment healthy by spreading seeds while digging.

STONEHENGE MYSTERY SOLVED

Thousands of years after Stonehenge was mysteriously built in Southern England, scientists uncovered where the giant sandstones came from. Using special tools, researchers tested the chemical composition of the sandstones and compared it to the stones in 20 other sites. The rocks were a perfect match to those in the West Woods, just 16 miles away from Stonehenge. It remains a mystery how the ancient people moved the stones, or why the monument was built.
